

## Pilatus PC12 NG

Aptly labelled as the “World’s Greatest Single”, (engine), the Pilatus PC-12 is the ultimate aircraft for longer flights between safari destinations.

Offering unparalleled comfort, speed, and efficiency and known for its spacious, luxurious cabin, the PC12 ensures a quiet and smooth ride, making even remote journeys a pleasure. Designed for versatility, the PC-12 can operate effortlessly from dirt runways, granting access to Kenya’s most remote and exclusive wilderness areas.

With its exceptional range and performance, this aircraft seamlessly combines adventure with sophistication, setting the standard for safari air travel.
